Yellow: means class was completed
(I thought for Exploring Studio Art and Exploring Digital it might be helpful to put in teacher names for those classes so we could ask those teachers later for suggestions about students they had.)

Green: Students should be recommended to take the class (I wrote in the class names instead of ? so it would be easier for me tomorrow to tell kids to add the classes to their schedules.)

Red: Students need to meet other pre-requisites before taking this class, but they are interested in it

Gray: Students have not passed the pre-requisite class OR a teacher strongly suggests that a student does not take a particular course at this time.
